

The image features four Vue.js logos, each composed of a teal 'V' and a blue 'X', positioned in the corners of a dark gray background. The logos are arranged in a square pattern, with one in the top-left, one in the top-right, one in the bottom-left, and one in the bottom-right.

O que é Vuex?

É um gerenciador de estados.

Mas... O que são estados?

São estados brasileiros?

```
import time

class Main:
    def __init__(self):
        self.state = False

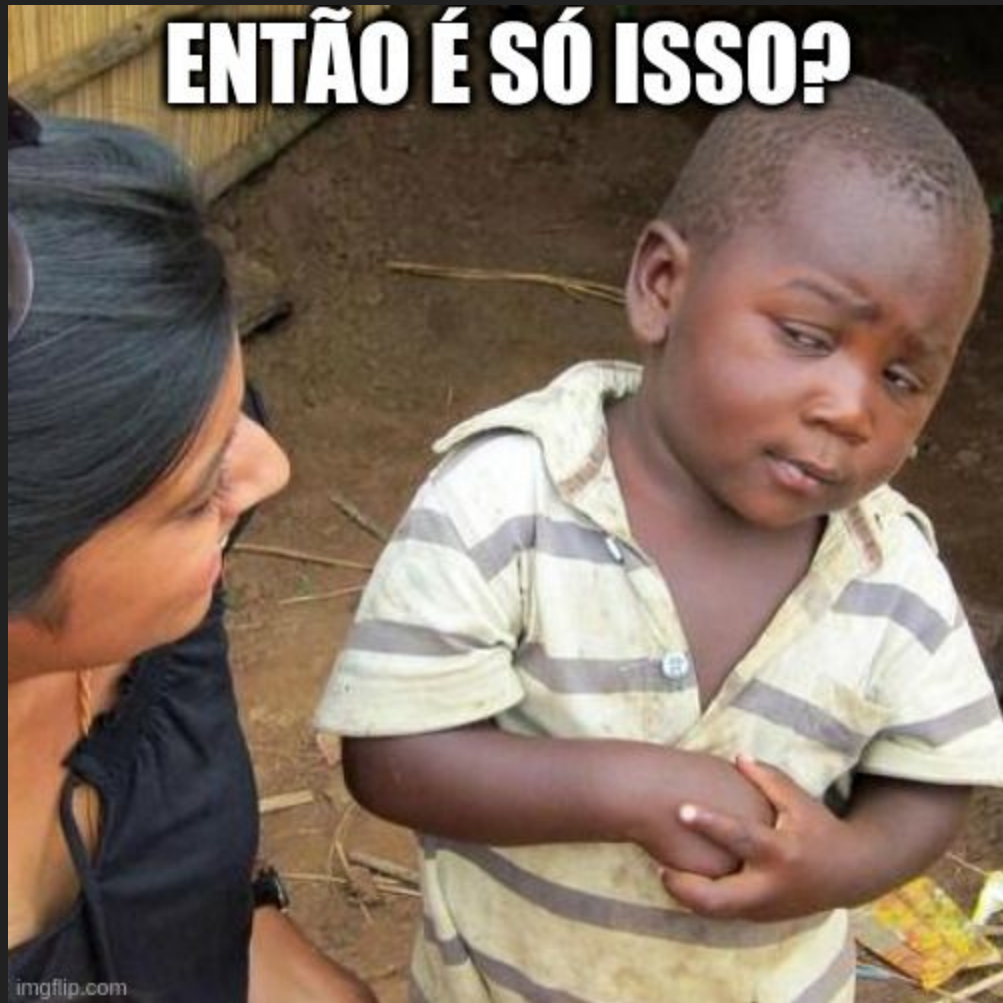

class Tv(Main):
    def __init__(self):
        super().__init__()

    def ligar(self):
        print("Ligando televisão em 3 segundos ... ")
        time.sleep(3)
        self.state = True

    def desligar(self):
        print("Desligando televisão ... ")
        time.sleep(1)
        self.state = False

    def status(self):
        if self.state:
            return "Estamos online"
        return "A tv encontra-se desligada"
```

ENTÃO É SÓ ISSO?

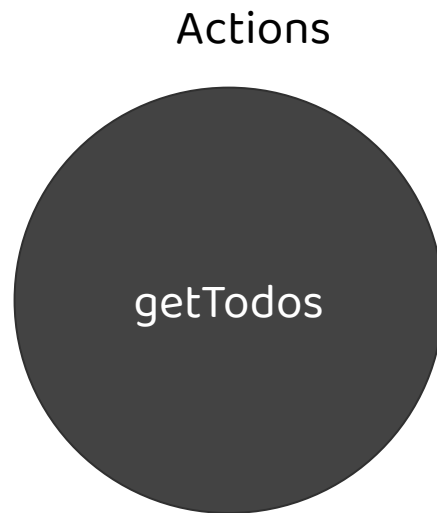

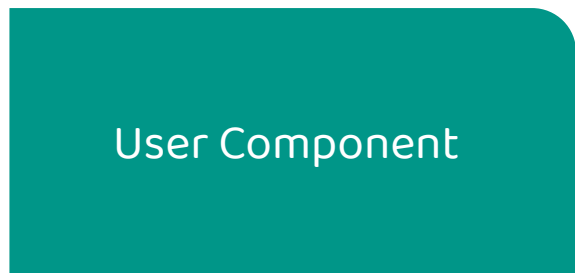

AN? COMO ASSIM?

E como o **V**uex gerencia isso?
